

# CANlink 700 Series: CAN Bus Displays

## DURABILITY MEETS FUNCTIONALITY

Consolidate vehicle controls and gauges with our CAN bus displays - delivering high-brightness graphics, text, and video while withstanding constant, long-term use. Customize screen design for maximum functionality with our do-it-yourself programming software or our systems applications team.

Feature / Model	CL-713	CL-714	CL-715	CL-716
Size	5-inch	7-inch	12.3-inch	15-inch
Resolution	800 x 480	800 x 480	1920 x 720	1920 x 720
Operating System	Linux	Linux	Linux	Linux
Programming Options	Crank, Qt, CODESYS, BSP	Crank, Qt, CODESYS, BSP	Crank, BSP	Crank, BSP
Optional Buttons	Yes	Yes	No	No
CAN Ports	2	2	4	4
USB Ports	1	1	2	2
Ethernet Ports	1	1	2	2
Analog Video	2	2	0	0
Ethernet Video	0	0	4	4
I/O	11/4	11/4	5/2	5/2

\* Qt not currently available on CL715/716. Customers can buy Open Platform and purchase Qt license directly from Qt.

## READY TO GET STARTED?

Connect with our team to discuss your display needs and find out how we can help integrate a CAN bus display into your control system.
